Spirit Delivery Planning:

The delivery plan of project deliverables is a strategic element for every Project Manager. The goal of every project is, in fact, to produce a result that serves a specific purpose. With the word „purpose“, we can mean the most disparate goals: a software program, a chair, a building, a translation, etc.... In Project Spirit Delivery Planning is one of the processes of Completing the project and Show Casing the Time Line of the Project Planning. This Delivery plan help to understanding the process and Work Flow of the Project working by the Team Mates.

Every Single Modules are assigned to the team mates to show case their work and contribution of developing the Project

DELIVERY PLAN

SPRINT 1	SPRINT 2	SPRINT 3	SPRINT 4
<ul style="list-style-type: none">• The term should conduct a proof of concept• The term should start by outlining the milestones• The term should monitor the process efficiency	<ul style="list-style-type: none">• The term makes any final adjustment to the process• the term should make the prototype for the project• the term should start by analysis the project	<ul style="list-style-type: none">• the team mates should understand the project flow• the team should monitor the work• the team should monitor the project management system	<ul style="list-style-type: none">• the team will show the demo process to the team mentor• the team mates updates the project modules in cloud• the team make the deploy the final model for testing process
